### Instructions for Making a Documentary

In the name of God, the Abundantly Merciful, the Intensely Merciful,

In this document, we will write guidelines for making a documentary. This guidelines are meant for making a documentary to tell your story and how you came to believe in Imam Ahmed alHasan a.s., the Yamani and messenger of Imam Mahdi, may God Almighty hasten his relief.

We will assist you with the montage of the documentary and we are at your service to help with editing and any help you need.

Preparing step by step.

1. Think about what you want to share with people. Where would you like to film, and what do you want to share about the Call?
2. Who are you? How old are you, and where are you from?
3. How long have you been a Muslim? How and when did you hear about the Call of Imam Ahmed Al-Hasan a.s.?
4. What did the Call do for you, what did it bring forth for you? How does it affect your daily life? Did it change you in a positive way?
5. What did you learn about the Call? Is there a specific part (maybe from a book, sermon or comment) that attracted you, and why?

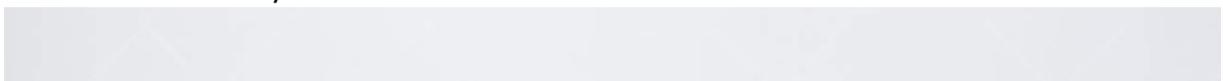

You can record short clips in different places. You can speak to the camera directly and make short clips for about one or two minutes only, recording while you are doing some activity. Think about walking, sitting in a library, reading a book from Imam a.s, remembrance (thikr) of Allah, etc.

For the short clips you don't speak directly to the camera. You would need to write out the text you would want to say during this clip. You can make a voice record and we will combine it with the clip.

Recording step by step:

1. You need someone with you to record you.

2. Record horizontally

3. You don't need a professional camera, you can use your phone.
4. Record short clips, speak directly into the camera (for example, four clips two minutes long)
5. Record short clips while doing an activity (for example, three clips two minutes long).
6. Make voice recordings for the videos when you aren't speaking into the camera, and we can put them together.
7. Add whatever personal or Call-related information. Send all files to sister Nasma. She will take work with other ansar to make one documentary of with all of the clips that you send.

Try to make a short documentary so it will be interesting to watch and hear your story. You can also add what you like the most about the Call, what book of the Imam a.s. you like the most, or tell people little things that you've learned from this blessed Call.

It is very important to tell your personal story, it will lead other people to the Call God willing, and it is very beneficial for the Ansar Allah to see the Call spread all over the world.

May God Almighty bless you all with good, and bring you closer to Him, the Almighty, and the Imam peace be upon him.
